

IX

National Day of Mines

27-28 may 2017

Under the patronage of:

The Geological Surveys of Europe

IX

Giornata Nazionale
delle Miniere

ITALIAN ASSOCIATION FOR ARCHEOLOGICAL INDUSTRIAL HERITAGE

(www.patrimoniaindustriale.it)

AIPAI is present in most of Italian regions, and it interacts with Universities, Research centres, Foundations, Museums and with various State bodies. AIPAI's role is to promote, coordinate and perform research activities with the aim of analysing the archaeological industrial heritage related to the system of cultural and environmental assets and the culture of labour. One of the goals of AIPAI is to conserve and to exploit the industrial heritage for the protection of the archives, machinery and other testimony of the industrial civilization and of labour.

NATIONAL ASSOCIATION MINING ENGINEERS (ANIM)

(www.minerari.it)

ANIM wishes to promote and to spread the study and the activities connected to the scientific, technical, economic and normative issues concerning mining engineering, the extractive industry and every other sector that has relevance with soil engineering. Special attention is given to the regulations and security problems regarding the activities of the mining culture by promoting the development of the mining parks and relative museums of the abandoned mining heritage.

ASSOMINERARIA - THE ITALIAN PETROLEUM AND MINING INDUSTRY ASSOCIATION

(www.assomineraria.org)

Assomineraria is part of Confindustria, the Italian employers' federation and national chamber of commerce. The main institutional aim of Assomineraria is to represent the interests of its 150 members, Italian companies specialized in various fields of mineral exploration and production. It is organized in three sectors: Mining, Hydrocarbons and Geothermal, and Equipment and Services.

While maintaining and defending the legal framework on concessions, the Mining Sector is also committed to increase the industrial minerals appreciation, so important for our economy, and to promote greater awareness of safety and sustainability issues in environment-related activities.

ITALIAN ASSOCIATION OF GEOLOGY AND TOURISM

(www.geologiaeturismo.it)

G&T aims to intensify the Italian geological heritage in order to have a qualified cultural tourism. It promotes cultural and tourism activities to spread a sustainable relationship with nature, to develop interest and awareness for the environment, connecting geo-diversity with biological, social and cultural themes.

IX

Giornata Nazionale
delle Miniere

These Associations share the common target of spreading the value and cultural meaning of the geological tourism, helping to appreciate the geological and mining heritage linked with a variety of other aspects such as archaeology, natural resources, art, architecture, enology and gastronomy.

National Network of Mining Parks and Museums (ReMi) and National Geology Council sponsor the Mining National Day GNM, promoted to spread the value and the cultural meaning of the geological tourism.

The GNM is now at the ninth edition increasing interest in the entire national territory. The initiative offers the opportunity to every Museum and Mining Park to organize activities and present their sites of attraction.

This year, the event at the tenth edition, takes place together with the G&T on May 27-28, 2017.

To join the 2017 edition, please give timely communication to the following email address:

giornatadelleminiere@gmail.com

The full program with all the initiatives will be available on the AIPAI website:
